EXPERIENCE

**Freelance Designer
& Front-end Learner**
Remote /
Independent
2020 - Present

- ◆ Took on freelance projects—ranging from illustrated textbooks to brand design for small businesses while temporarily stepping back from full-time roles to caregiving during the pandemic.
- ◆ Self-taught front-end development (HTML, CSS, JS), applying skills to personal portfolio site and experimental UI prototypes.

UX UI Designer
Armature Corp
2019.02 - 2019.10

- Product Redesign for Workflow Efficiency
- ◆ Redesigned legacy modules such as event management module. 32% increase in task success and 57% increase in user satisfaction.
 - ◆ Delivered tailored features based on premium user requests, increasing adoption and long-term engagement.
- Cross-functional Collaboration
- ◆ Facilitated weekly design review syncs with PMs, engineers, and QA to maintain alignment across teams.
Reduce design-to-dev turnaround time by 20% by standardizing handoff assets and prototypes.

UX UI Designer
Maxus Tech
2017 - 2019

- System-wide Product Design & Optimization
- ◆ Developed and maintained the design system for a 3-app ecosystem (Hungry, Chefoo, Hungry Express), improving visual consistency and reducing onboarding friction.
 - ◆ Redesigned food ordering journey, decreasing task completion time by 35% and increasing repeat usage by 20% within two release cycles.
 - ◆ Standardized UI components and flows across products, reducing redundant design effort by 30% and shortening design-dev alignment cycles.
- Brand & Business Communication Design
- ◆ Supported branding and pitch efforts by creating visual assets such as logos, posters, packaging, and presentation decks.

**Visual Designer
Illustrator**
7thOrange studio
2014 - 2016

- Multi-format Visual Design
- ◆ Designed digital assets including H5 interactive pages, banners, and posters.
 - ◆ Illustrated children's picture books and educational content.
